

CONFLICTS OF INTEREST

General Description

Actual, potential and perceived conflicts of interest may exist in any interaction you have with an individual or organization. Our relationship with you is no different.

Description of Our Business

Global Maxfin Capital Inc. ("GMCI") is what is referred to as an "integrated" investment firm (or an integrated investment dealer) since we provide a broad range of corporate finance, institutional trading and retail client services and products. We recognize that by definition we are more susceptible to conflicts of interest than many other business activities since we may for example represent both sides to a transaction, namely, the buyer and the seller. There are generally three types of conflicts that can arise:

- Conflicts of interest between you and us,
- Conflicts of interest between you and our other clients, and
- Conflicts of interest between us and our related and associated companies.

As an investment dealer, we are a financial intermediary. As is the common practice in the brokerage industry, sometimes we may be the party on the other side of the transaction (referred to as a "principal" trade) where we own the security we sell to you. On other occasions, we simply facilitate a transaction between you as our client and a third party on the other side of the transaction through an "agency" trade where we have no ownership interest in the security traded. In still other cases, we advise an issuer of securities on how to best raise funds by selling securities while, at the same time, recommending that our clients buy those same securities.

More information about GMCI may be found on our website, www.globalmci.com.

Management of Conflicts of Interest

In general, we deal with and manage relevant conflicts as follows:

- **Avoidance:** This includes avoiding conflicts that are prohibited by law as well as conflicts that cannot effectively be addressed.
- **Control:** We manage acceptable conflicts through means such as physically separating different business functions and restricting the internal exchange of information.
- **Disclosure:** By providing you with information about conflicts, you are able to assess independently their significance when evaluating our recommendations and any actions we take.

The following information is intended to assist you in understanding and assessing material potential and actual conflicts of interest, including how we address them. However, this is an overview of a complex subject and is not meant to be an all-inclusive list of conflicts of interest.

If you ever have any questions or concerns, whether they involve conflicts of interest or anything else, you should never hesitate to say so and you should ask your advisor for an explanation as well as for more information.

Outside Business Activities

Our Advisors Ted (Kyungtae) Kim, Bonnie Wyatt and George H. Yuan are dually licensed to provide insurance advisory services in an agency capacity. Please note that the insurance advisory business activity conducted by our Advisors acting in this capacity as agents is not the responsibility of GMCI but the responsibility of the agents alone.

A GMCI Representative may be permitted to have outside business activities with conditions. These conditions are:

- That the activity is in compliance with any condition set out by the applicable securities commission;
- GMCI has approved the outside business activity and reported it to the regulator;
- That the Representative follows the Policies and Procedures in place at GMCI to ensure continuous service and that potential conflicts of interest have been identified and addressed.;
- That the activity is not one that would bring the securities industry into disrepute.
